

Touch Trim

Sailing made easy

ELECTRIC-POWERED MAINSAIL HANDLING

The Harken Touch Trim is an electric-powered mainsail trimming system completely self-contained in the boom. Operated remotely by push button, there are no winches to grind or tailed line to clutter the cockpit. Two boom models are available. Like Harken's other *sailing made easy* solutions, Touch Trim does all the work.

INCLUDED

- Boom and Gooseneck
- Electric Control Box
- Messenger Line

BOOM AVAILABLE IN

- 24 Volts
- White or Clear Aluminum
- In-Mast Mainsail Model
- Reefable Mainsail Model

FITS BOATS

- 15-18 m (50 to 60 ft)
- Each boom must be designed to fit boat model
